

Syed Raza | OAA Intern Architect | LEED AP BD+C

Richmond Hill, ON | 647-504-4914 | raza.m.syed@torontomu.ca | LinkedIn | Portfolio | YouTube

SUMMARY OF QUALIFICATIONS

- OAA-registered Intern Architect and LEED AP BD+C with experience developing permit, pricing, IFP, IFT, and IFC drawing packages for residential, commercial, and interior projects.
- 10+ years of Revit experience supporting BIM modeling, construction documentation, detailing, consultant coordination, and project delivery.
- Strong understanding of construction assemblies, building systems, architectural specifications, and Ontario Building Code requirements.
- Experienced collaborating with architects, engineers, consultants, contractors, and clients throughout design development and construction documentation phases.
- Skilled at interpreting technical drawings, presenting design solutions, coordinating multidisciplinary teams, and supporting specification-driven project decisions.

EDUCATION

Master of Architecture (M.Arch) Carleton University, Ottawa, ON

Sep 2023 - Apr 2025

- CGPA: 11/12
- Focus: Healthcare architecture, biophilic design, environmental psychology, and sensory spatial analysis

Bachelor of Architectural Science (BArchSc) (Honours) Toronto Metropolitan University, Toronto, ON

Sep 2019 - Apr 2023

- CGPA: 3.7/4.33
- Focus: Advanced design studios, sustainable architecture, construction documentation, and digital representation

CERTIFICATIONS

- LEED AP BD+C
- Revit Software Certificate | Leonardo College, Toronto, ON

Oct 2013 - Dec 2013

PROFESSIONAL EXPERIENCE

Architectural Intern | Design Documentation

Prosun Architects, Toronto, ON

Winter 2025 – Present

- Developed RCPs, floor plans, sections, and FF&E documentation in Revit for luxury residential projects valued up to \$10M CAD.
- Produced architectural and interior drawing packages to support design development, consultant coordination, and client presentations.
- Integrated material selections, construction detailing, and multidisciplinary coordination across multiple project phases.
- Prepared renderings, survey drawings, and masonry takeoffs to support project documentation, consultant coordination, and construction review.

Architectural Intern | Contract-Based

ah+ Architects, Toronto, ON

Winter 2020 – Present

- Designed coordinated IFP, IFT, and IFC drawing packages in Revit for custom residential and boutique interior projects.
- Illustrated floor plans, elevations, sections, and millwork details to support permit documentation and consultant coordination.
- Collaborated with structural, mechanical, and electrical consultants to integrate building systems across multiple project phases.

Architectural Internship

North Office Architects, Toronto, ON

April 2024 – Sep 2024

- Designed permit, pricing, and construction drawing packages for retail and residential interior projects.
- Collaborated on site analysis, detailed millwork drawings, material selection, and Ontario Building Code compliance to support consultant coordination and drawing documentation.

Operations, Sales & Customer Relations Coordinator

Future Gadgets, Toronto, ON

June 2013 – Dec 2022

- Built long-term customer relationships through consultative sales, technical troubleshooting, and service coordination.
- Analyzed market trends, customer preferences, and product demand to support inventory and purchasing decisions.
- Coordinated repair services, customer communications, and after-sales support to ensure high service standards.
- Collaborated with suppliers and vendors to manage product availability, pricing, and inventory requirements.

TECHNICAL SKILLS

- Autodesk Revit 2026, AutoCAD, Rhinoceros 3D
- Construction Documentation, Building Systems & Assemblies, Architectural Specifications
- Ontario Building Code, Consultant Coordination, Material & Product Evaluation
- Revit BIM Management, Design Development, Technical Presentations
- Drawing Interpretation, Building Envelope Fundamentals, Project Coordination

RECOGNITION

- Kay Blair Hospice project selected as Best-in-Studio and presented at a municipal design review chaired by the Mayor of Brampton, ON.
- Recipient of the Carleton University Departmental Scholarship for academic achievement.
